[^] S&P/ASX 300 Accumulation Index (100%)

Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

Investment objective

To combine long-term capital growth with tax-effective income by targeting Australian growth companies with a high level of franked dividends. The option aims to outperform the S&P/ASX 300 Accumulation Index over rolling three year periods before fees and taxes.

Investment strategy

The option's strategy has an emphasis on companies that provide long term capital growth and growing dividends with tax-effective income. The strategy is based on the belief that, over the medium-to-long term, stock prices are driven by the ability of management to generate excess returns over their cost of capital in their chosen industry. The option generally invests in high quality companies with strong balance sheets and earnings. The option predominantly invests in Australian companies and therefore does not hedge currency risk.

Investment category

Australian Share

Minimum suggested timeframe

At least 7 years

Investment ranges

Asset class	Range	Benchmark
Australian shares	90% - 100%	100%
Cash	0% - 10%	0%
