^ S&P/ASX 100 Accumulation Index (100%)

Past performance is not an indicator of future performance for this option or any other option available from Colonial First State.

Returns are calculated on a cumulative year-on-year basis which are then annualised. For funds that have been in existence for less than one year, the since inception performance is actual performance since inception and not annualised. Calculations are based on exit price to exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Please refer to the PDS for full details of the applicable fees, costs, and benchmarks.

Investment objective

To magnify long-term returns from capital growth by borrowing to invest in large Australian companies. The option aims to outperform the S&P/ASX 100 Accumulation Index over rolling seven year periods before fees and taxes.

Investment strategy

The option generally invests in large, high quality companies with strong balance sheets and earnings. The option's gearing effectively magnifies returns from the underlying investments, whether they are gains or losses. The option predominantly invests in Australian companies and therefore does not hedge currency risk. Where the option borrows in a foreign currency, proceeds will be fully hedged into Australian dollars.

Investment category

Geared

Minimum suggested timeframe

At least 7 years

Investment ranges

Asset class	Range	Benchmark
Australian shares	90% - 100%	100%
Cash	0% - 10%	0%
